

Cyber talk thing:

Black hat = bad users

White hat = good

75% discrepancy

cliff show

Two sets of records

no Unix systems accounting } compared

no localised account scripts

"Hunt", dockmaster email, Joe sweater (Cambridge + left 1/4)

50 dial in lines

intruder coming from x.25 Tymnet connection

bug with email

Got sent a page when the car logged in

accessing from Oakland

located at password files

Rainbow tables

started making white sands

Hacker was outside connected US

thread Hacker through the line (8 hrs)

First homepage

u Hacker out of West Germany for east Germany

KAB paid for the techniques as well as the data.
